Be Well Canada Spa is specialized in the manufacturing of high-end spa

# Enjoy the Moment, Be in Love

Be well Canada spa takes a very particular attention to the design of their hot tubs line so that you can benefit from unforgettable moments of relaxation

Every day we made our responsibility to earn and cultivate the trust of our customers.

Customer satisfaction is our motto. Our entire team is mobilized to achieve it. From product design to after sales service, passing through manufacturing and distribution, quality is constant. We are focused on one goal: provide maximum reliability to our products and cultivate customer satisfaction.

# Peace & Quiet, Be relaxed

Enjoy a short break and take care of yourself before the start of your day. What's more sensational? Peace & Quiet... Be relaxed!

Imagine... It is 6 hours in the morning, the sun rises, and the day starts magnificently.

Enjoy your hot tubs at any moment of your day. In Solo, duo or with your family, your BE Well spa will procure you pure moments of happiness. Be Well Canada Spa has especially designed their tubs to allow a wide range of use so that your spa becomes part of your everyday life.

# Family & Friend, Be Together

Your evening starts with a glass of wine and a pure moment of relaxation. Enjoy the conversation without being disturbed by the noise of your cell phone.

Your spa is a true oasis of well-being and conviviality to share without moderation.

Your friends and relatives will appreciate the benefits of the warm water treatments and the priceless moments of reunion. Be Well spas offer a unique and powerful massage. Even several persons at the same time will be able to benefit from the same quality of massage due to our models equipped with up to three 4HP pumps.

# By Night, Be Outside

At night our hot tubs are surrounded with thousands of hypnotic colors and leaves room for the pleasures of relaxation. A night session in a Be Well spa is an unforgettable experience.

Enjoy your hot tubs at night and discover the unique experience of the color therapy.

At night, color therapy provides to Be Well Canada Spa an exceptionally attractive side. Optionally you can choose red, blue, green, yellow, orange, white, pink or just let the colors vary per the order of the rainbow sky. You can also enjoy many flashing or strobe effects up to the inside of the water jets. Retro colored valves help to create the shimmering colors effects.

# Quality and Confidence

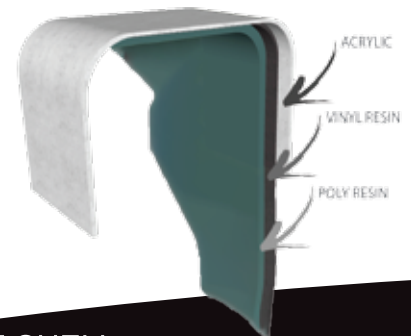

Be Well Canada Spa is a Canadian hot tubs manufacturer. We are very present in Europe with our French branch as well as our distribution network in 10 countries. Our spas combine European design, North American isolation standards and the optimization of the hydrotherapy benefits.

Once built all our spas are tested in real conditions for 48 hours. Waterproofing, seals as well as various spa functions can be tested in optimal conditions allowing us to ensure the best quality assemblage. For that reason, we offer a 3 years warranty on all electronics parts and 15 years on the shell.

## THE BASE OF THE SPA

The base isolates the electrical components of the soil. It supports the weight of the tank and ensures the stability and balance

## THE SHELL

Our shells are thermoformed and laminated in our Canadian plant. Our expertise allows us to offer an excellent finish and excellent weather resistance.

### FRAME

The chassis of all our hot tubs is made of treated wood class 4 which means that it is protected against biological attack and resists to bad weather and moisture. The advantage of wood is to absorb vibrations; in addition, the pumps are mounted on silent block, for a quieter spa experience.

### INSULATION

The insulation of our hot tubs is enhanced and provides very low power consumption even at extreme temperatures. To provide an outstanding insulation we use high density polyurethane foam equipped with two thermo reflector faces. The heat of the pumps is recycled to heat the water while facilitating access for maintenance. Our five inches thick insulated cover is also manufactured in Canada and is maintained by locks secured by a key.

# Original Series 300

Dimensions: 85"X65"X34"  
Seating: 3

O364

A **T**eam at your **S**ervice

## The 3 Vectors of the **Be Well** policy:

### 1. THE BEST QUALITY / PRICE RATIO ON THE MARKET:

Our modern Canadian manufacture allows us to produce hot tubs among the best quality price ratio on the market. Be Well spas are built with durables materials to provide higher quality standards. Our suppliers such : Lucite, Waterway, Gecko, CMP have been specifically chosen so we can produce spas among the most high-end on the market. Our Hot tubs are specially insulated to face our rigorous Canadian winter.

### 2. CUSTOMERS SATISFACTION:

At Be Well we firmly believe that the user should be the cornerstone of all our actions. From design to after-sales service, our goal is to make our customers happy and fully satisfied. We give a special attention to the design of our tubs so that you can feel the differences. A session in a Be Well spa is an unmatched experience. At Be Well, we manufacture spas that provide real medicinal benefits.

### 3. OFFER A QUICK AND EFFECTIVE AFTER SALE SERVICE:

A spa is a major investment and it is therefore necessary to ensure that the company from which you buy it offer an excellent after sales service. Be Well has a stock of spare parts to quickly answer any problems that may arise. In case of any problems, our tech team will be there for your age of 4 to 8 open days.
